Meghan Dwyer

Via e-mail: Meghan.dwyer@fox6now.com

Dear Ms. Dwyer:

On approximately August 2, 2016, you made a request, under the Wisconsin Public Records Law, for:

Documents related to any testing of water at any MPS school building where children were present from January 1, 2016, to [August 2, 2016], including but not limited to test results and lab reports.

On August 29, 2016, we responded that a search was conducted, but no responsive records were located. On August 30, 2016, you asked whether there were emails in response, as well as a list of schools that were to be tested.

In response, we followed up with our staff, who located two responsive documents, a letter which were sent to staff and a letter sent to families, on the subject of water testing. A copy of these letters have been e-mailed to Meghan.dwyer@fox6now.com.

As to the question of whether there is a list of schools that have been or will be tested, please note that in the August 30, 2016, e-mail in which our response to your August 2, 2016, request was transmitted, we noted that "MPS began working with the health department to begin a proactive approach to conduct tests in all schools." A list of all MPS schools is available on the district's website. We are also happy to download and print a school list for you, upon your request, for our standard photocopying rate.

As to the question of whether there are e-mails on the subject of water testing, your request was for "documents", not for e-mails. Consequently, we did not conduct a search for emails in response to this request.

However, we have received your most recent request, dated September 9, 2016, wherein you have requested emails of specific staff members on the subject of water testing. You will receive separate correspondence and a separate response for that request.

Sincerely,

Jacqueline M. Mann, Ph.D.
Board Clerk/Director
